## RECOMMENDED CONFIGURATION

Display layout	up to 2x2 monitor
Operating system	Windows 10 x64
Processor	AMD Ryzen 9
System RAM	16 Gbyte RAM
Graphics card	ASUS nVIDIA RTX 2060
Hard Drives	2 TB HDD

## FEATURES

Single LAVC-W-01 could be installed on multiple work stations to provide larger video wall.

More clients can connect to one Video Wall at the same time.

In case of incident a larger view allows for easier observation.

The Video Wall is remotely controlled by dragging and dropping camera images from the client.

The images are automatically resized depending on how many are being displayed.

The 200, 320, 600 MP panoramic images can also be displayed on the Video Wall in proportion with the other images.

The Picture-in-Picture function is also available.

Remote zoom makes it possible for clients to zoom on images at the Video Wall.
